# Two modern carefree Trailer Yacht

*The Yacht with sufficient buoyancy to stay afloat even if filled with water.*

### Australia's most modern Cruiser Racer

Designed by Rob Legg, who, with over 30 years experience in the design and construction of racing and cruising craft, has developed these two first class boats.

### Performance, Comfort and Safety anywhere.

Equally at home in light airs of inland waters or out on the rugged coastal waters, these yachts have proven performance and safety features. Tested by the Industrial Design Council of Australia and a well known boating magazine, they have been proved as self righting with a locked down centreboard. Extensive built-in buoyancy ensures that the boat will float even in extreme circumstances, and unique self draining aft and forward cockpits give a great sense of security and safety.

### 1976 Good Design Award — RL24

Acclaimed as Australia's fastest Trailer Yacht and awarded a 92 V.Y.C. Yardstick Rating, the RL24 is extremely popular with over 300 built since her inception in 1973. Designed to sleep 4 or 2 adults and 3 children, the interior is open and clear of unnecessary bulkheads to provide comfortable living. The midship toilet, galley and icebox areas are convenient and the cabin can be divided if required. Auxilliary power is provided by a 4 to 10 h.p. standard shaft outboard sited in a special well designed to prevent cavitation.

Good Design Award features include simplicity of rigging, self righting and buoyancy, ease of launching (14" water under transom), self draining facilities, main and forward cockpits, performance and comfort, unique motor well, and maintenance free hand laid fibreglass construction.

Yachts that are Homes away from Home with

**The RL28 . . . Maxi in every respect**

New, sleek and roomy, the RL28 is the "Maxi" trailable yacht with 6' headroom, six berths, galley with gimbaled stove, 42 gallons fresh water storage and hanging wet gear locker. The RL28 is built for comfort with luxurious upholstery, teak dining table, fully carpeted and separate shower, toilet and wash basin — truly a home away from home. Incorporating all the unique design award features of the RL24 and more, the RL28 offers:— 17 individual storage compartments, off the beach capability with 16" minimum draft, 40% ballast ratio, hydraulically operated swing keel or optional fixed keel, custom designed tandem trailer with vacuum disc brakes, full range of hull, waterline and nonskid colours and many optional extras. Available with inboard motor for extended cruising.

An outstanding feature of the RL28 is the ease with which it can be sailed and several of our yachts are now being enjoyed by families with no previous sailing experience.
